Display the following information at the bottom:

Information Management Consultants, Inc
(703) 871-8700
www.imc.com
marketing@imc.com
Link to clinicaltrials.gov

Display the following content information on the home page.

"Transparency through timely, controlled and effective communication."
Effectively communicating adverse events to a wide ranging audience requires thoughtful consideration to both the types of shared information and the targeted recipient. A consumer covets readily digestible information on the medicinal product they plan to or are currently taking. Alternatively, the researcher and medical professional have a broader mandate for actionable information.

RxEffects plans to deliver adverse event information to this broad community

Visualization
Communicating critical information in easy to consume pictorial or graphical format
Data Consolidation
Providing consolidated data sets from multiple sources enabling researchers and medical professionals to extract information for external examination
Analytics
Transform the reported data into meaning knowledge

Acceptance Criteria

The following content is displayed in the footer:

Contact information for IMC is displayed

A link to Clinicaltrials.gov is displayed and is directed correctly to clinicaltrials.gov.

Test Details

	Test Step	Test Data	Expected Result
1	Launch valid url	http://www.rxeffex.com:8080/18f /index.jsp	18F home page should open up.
2	Check that on the home page there is a menu with the following options appears : • Home • Consumer • Medical Professionals		A menu with the following options should appear on the top: • Home • Consumer • Medical Professionals

	• Researchers		• Researchers
